*STUNNING RED DEER POPULATION*

*WILD BOAR HUNTING*

## **THE HUNTING DISTRICT AND ITS OUTSTANDING RED DEER POPULATION**

*The countries in Central and Eastern Europe, and Hungary certainly among them, boast many hunting grounds of great quality in terms of natural beauty, richness and health of game populations. However, there are some areas that stand out for their exceptional quality. One of these exceptional areas is the hunting district of this offer, which is located about 150 km south of Budapest. The district is divided into four main hunting areas with different characteristics. Totally around 46 thousand hectares, around 85% covered by forests. The first two areas lie within the largest alluvial forest of exceptional value in Europe, with rich flora and varied and unique fauna. Several species of flora and fauna have been recorded in the alluvial forest, which is home to large herds of red deer, wild boar, eagles, jackals, beavers, herons, kingfishers and a population of protected black storks. The other two hunting areas are located in the plains, agricultural areas and sandy forests. The highly specialised staff has managed over the years to combine sustainable forest and deer management with excellent hunting results in terms of the number of red stags hunted each year and the value of the trophies. Totally about 900 red deer are hunted during each hunting season. The main hunting season is the rutting season, which often begins in late August or early September. Below are the results of the last four hunting seasons. In 2021, 114 stags were bagged, with 16 trophies over 10 kg. The record trophy was 11.24 kg and was hunted in the floodplain part of the district. There were 22 gold medal trophies, 40 silver medal trophies and 25 bronze medal trophies. The average age of the stags harvested was almost 9 years and the average trophy weight was around 8 kg. In 2022, 99 red stags were bagged, 12 of which produced trophies over 10 kg. The largest trophy was 11.51 kg. The medal ratio was 71%, with 20 gold medals and 25-25 silver and bronze medals. In 2023, 88 red stags were bagged, 18 of them with trophies over 10 kg. The record trophy was 13.36 kg. The medal quota was 77%, i.e. 21 gold, 26 silver and 21 bronze medals. In 2024 a total of 98 stags were hunted. Of these, the trophy weight of 8 stags exceeded 10 kg, with the largest at 10.77 kg. We know that trophy size is something that many hunters value highly. This area offers the opportunity to hunt red stags with trophies (record trophy of a stag hunted in 1986 was 271 CIC Points) that are difficult to find in many areas of Central and Eastern Europe (free range of course). However, in our opinion, the uniqueness of the hunting experience in this hunting district of Hungary lies in the breathtaking beauty of the floodplain, the great professionalism of the forest and deer population management. The same professionalism of the hunting guides who are always ready to meet the needs and wishes of the hunters from all over the world who choose to hunt in this hunting paradise every year.*

***The length size is based on average of the length measured on the outer curves of the two lower tusks. The measurement shall be done with millimetre accuracy. The trophy shall be presented at an official trophy judgement from 16 cm.***

## ACCOMMODATION

*A high-quality stay is guaranteed at one of the six modern, well-equipped hunting lodges or in the small hunting castle. The small hunting castle has welcomed important members of the Habsburg royal family. Guests usually appreciate the historical charm of the building and the excellent cuisine. Nevertheless, the various hunting lodges offer very comfortable accommodation and excellent food as well. Our package includes a hearty breakfast, a lunch with a substantial one course dish during the hunting day and a three-course dinner. Below, you will find some photos of the hunting lodge and the lodges.*

***TOURIST ATTRACTIONS. PECS ANND MUCH MORE***

***You can complement your hunting days with a rich tourist programme. As well as Budapest, which is about 200 km away, it is definitely worth planning a visit to Pécs, home to UNESCO monuments; the Danube–Drava National Park, which has the largest floodplain forest in Europe; the spa town of Harkány; the 14<sup>th</sup>-century Siklós Castle; and the town of Szigetvár, which has a castle and many other monuments. Last but not least the beautiful town Osijek in Croatia just near the border with Hungary. We can offer hunters and non-hunting guests food and wine tours, hiking and fishing, to name just a few activities. We can also prepare a detailed tourist programme on request, including a tour guide, transfers and meals in selected restaurants.***
