

HUNTING SEASON 2026/2027

DRIVEN HUNTS IN THE CZECH REPUBLIC

A FEW OUR OFFERS

Driven hunts in the Czech Republic with St. Hubertus Hunting Tours

We have specialised in organising hunting trips in the Czech Republic for 14 years. Our team comprises driven hunting enthusiasts who have selected areas rich in game across the country. We pay particular attention to the high-quality organization of the driven hunt, which is essential for both a successful outcome and the safety of participants. Below, you will find some of our offers for the 2026/27 season. These are three-day hunting packages. Packages with two or four days of hunting are available on request. All packages include tuskers as standard. According to Czech law, it is forbidden to hunt red stags, fallow bucks, mouflon rams and sika stags during driven hunts. However, the owners of a hunting area can obtain exemptions from the relevant authorities. We will inform hunters if such permits are in some areas described below. Hunting large sows is strongly discouraged in order to maintain a healthy boar population in the future. The same applies to spikers of deer.

HUNTING AREA N. 1. CENTRAL BOHEMIA
3 DAYS HUNTING AND 4 NIGHTS IN HOTEL

THE HUNTING AREAS

Hunting areas: around 7000 hectares totally

Location: Hilly area

Type: forest

The hunting areas, around 20-40 minutes from Hotel are currently leased by private owners. The total area of the hunting grounds is around 7000 hectares, of which a large part is forest. The hunting grounds are mostly situated in slightly undulating terrain at an altitude of around 300-400 meters above sea level and are therefore characterized by its nature very good for driven hunts. Coniferous trees dominate the area, especially spruce and pine, while beech and oak are deciduous trees. This hunting areas has not escaped the recent bark beetle calamity either, so there are many newly harvested trees after the big logging operations, which are home to a large number of game. The main game here is wild boar, other game is roe deer and fallow deer. There is always a sufficient number of beaters and dogs working in the drive, so driven hunts in this area become very attractive, desirable and memorable for hunters. The hunt usually starts at 9 a.m. and ends with a closing ceremony at around 4 p.m., when, to the sound of borlls and horns, the hunters are presented with fragments in honor of their successful hunt. Based on recent results in these hunting areas with the same organisation, a group of 25 hunters could expect to hunt 25 to 40 animals per day. Typically, 50 – 70 % of the animals hunted over the course of three days are wild boars.

HOTEL

The Hotel is located in the historic center of Kutná Hory. It got its name from the temple of St. Barbory, which is less than 200 meters from the hotel. And the epithet “courtyard” was acquired by the builder and architect Jan Baptista Spinetti , who built a house on today’s land in 1697, by purchasing and connecting three courts, which at the time were the ruins of Gothic buildings. With respect for tradition, extensive construction and reconstruction took place between 2018 and 2022, when the original parts of the house, i.e. the front side on Komenského náměstí and the building in Barborská Street, were very sensitively reconstructed, preserving all the original elements that decorated Jan’s house in the seventeenth century Baptista Spinetti . The rest of the hotel was completed and connected to the historical building. In the newly added part, in addition to the hotel rooms, the restaurant Kozlovna Barborský dvůr found its refuge, which also serves hotel guests for refreshments. Hotel restaurant Kozlovna Barborský dvůr is a concept of Plzeňský Prazdroj. Here you will find specialties from the Czech cuisine and beer such as horseradish, which are drawn from the tank.

***HUNTING AREA N. 2. NORTHERN BOHEMIA. 90 KM FROM PRAGUE
3 DAYS HUNTING AND 4 NIGHTS IN HOTEL***

HUNTING AREAS AND ORGANISATION

The hunting days occur in different areas – free range - in Central-Northern of the Czech Republic of between 1000 and 3000 hectares, largely covered by forest, bush and meadows. These are hilly areas of great natural beauty with altitudes of up to 700 metres above sea level and are very rich in game. Main species are wild boars, mouflons and fallow deer. In some areas there are red deer also. All hunting areas are within 20-40 min drive from the hotel described below.

26-29 hunters is the optimal number for driven hunts in the different hunting areas. For groups with fewer hunters (never less than 20, however) the organisational costs per hunter increase as you can see in the various packages below.

Usually 2 long drives (2,5 hours each one) are scheduled during each hunting day. A third drive is arranged if needed (but usually the result of the first 2 drives is really very good). During each drive, hunters have many opportunities to hunt game.

The same skilled staff has been organising this driven hunt for years and has a very good knowledge of hunting areas. The staff together with professional beaters and dogs assure a good organization of the driven hunt in compliance with safety rules. During the driven hunt will be possible to hunt male wild boar with no weight or age limit, then no trophies of fallow deer, mouflon and in some areas also of red deer.

The abundance of wild boars in the different areas varies. Therefore, the percentage of wild boars in the final bag varies from area to area. Typically, the total bag over the three hunting days of the driven hunt will be around 30% - 40 % wild boar and 60%-70 % other game (non-trophy game such as fallow deer, red deer and mouflon). In some areas there are many fallow deer).

Over the last 5 years, groups of around 25 hunters have hunted between 80 and 120 animals in three days of hunting in the vast majority of hunts in the areas covered by this offer, with the same organisational staff.

The above results and the satisfaction of the hunters are the best proof that this is a well -organized driven hunt in areas rich in game.

As a guarantee for the client, the offer is structured in such a way that if the number of animals in the three days is not equal to the number of hunters x 3 days, discounts are applied. During the driven hunt, our staff record the number of animals hunted and the number of shots fired. If the total number of shots exceeds the number indicated below, no discounts will be granted.

According to the Czech law is forbidden to hunt trophy animals during driven hunts. The owners of a hunting area can obtain exemptions from the relevant authorities. We will inform hunters if in some areas there will be such permits for hunting red stags, fallow bucks and mouflon rams.

The hunt of large sows is strongly not recommended to guarantee a good population of boars in the next future. The same as per fallow deer and red deer spikers.

HOTEL

The guests are accommodated in a nice 3 hotel located in a small historical town. Each room comes with private bathroom, minibar and TV. Wi-Fi access is provided free of charge. Dinners are served in a nearby restaurant/wine bar, specialized in international cuisine.*

37 to 55 animals in 3 days for 25 hunters: 400 € discount per hunter

Less than 37 animals in 3 days for 25 hunters: 600 € discount per hunter

The discounts do not apply if the group has fired a number of shots over the three days which, divided by the number of hunters, gives a result of 2 shots per hunter per day.

Example: If 25 hunters shoot more than 150 shots in three days and hunt less than 75 animals, they will not be entitled to a discount.

HUNTING AREA N. 3. WESTERN BOHEMIA
3 DAYS HUNTING AND 4 NIGHTS IN HOTEL
OFFER FOR SMALLER GROUPS 10-12 HUNTERS

HUNTING AREAS AND ORGANISATION OF THE DRIVEN HUNT

The unting take place in several free-range hunting areas, sizing totally around 10000 hectares. These areas are covered with woods, bushes and meadows and have a very rich population of wild boar, sika seer, as well as a population of mouflon. Two long drives a day are usually planned. Driven hunt is arranged by placing the hunters in raised stands and there is always an adequate number of beaters and dogs. The hunting area where the drive takes place is divided into four squares and the hunters are placed in different positions within the four squares. The beaters and dogs push the animals towards the hunters from different directions. This type of organization has proved to be very effective in these hunting areas in recent years and better guarantees the safety of hunters, beaters and dogs. In recent years, groups of 10 hunters have hunted at least 75 animals in three days. Trophy prices are listed below. Our staff have included this hunt in our driven hunt proposals after noting the abundance of game in the areas and the careful organization of the hunt to ensure the safety of all participants and good results that meet the hunters' expectations. According to the Czech law is forbidden to hunt trophy animals during driven hunts. The owners of a hunting area can obtain exemptions from the relevant authorities. We will inform hunters if in some areas there will be such a permits for hunting sika stags and mouflon rams.

HUNTING AREA N. 5. NORTHERN-EASTERN CZECHIA. 25 HUNTERS

The first and third days of the hunt will take place in an area spanning around 1,500 hectares – free range. This location is situated approximately 20 minutes from the hotel, in the northern part of the Czech Republic, around 80 km south of Dresden in Germany. This low mountain hunting ground consists mainly of woodland and copses and is home to large populations of red deer, roe deer and wild boar. The hunting area lies at the foot of a 950-metre-high mountain. A winding valley runs through its centre, with steep hills alternating with plateaus and valleys, which offer many splendid viewpoints. Driven hunts are organised for groups of about 25 hunters, with an average of 25–35 animals hunted per day. The species hunted are wild boar, red deer and roe deer.

On the second day of the hunt, you will travel to an area – free range covering around 600 hectares, located approximately 50 minutes from the hotel and 80 km north of Prague. This hunting area lies at an altitude between 245 and 300 metres above sea level, 80% of which is flat terrain. The remaining 20% consists of undulating terrain, including slopes, steep valleys and areas of more difficult access. These areas are the richest in game in the entire hunting ground. Seventy per cent of the reserve consists of woodland, primarily oak mixed with pine, while the remainder consists of meadows and fields. Overall, between 150 and 200 hoofed game animals are hunted each year. During a day of driven hunt a group of 25 hunters will hunt between 25 and 35 animals. The main game hunted during driven hunts is wild boar plus fallow deer and mouflon.

According to the Czech law is forbidden to hunt trophy animals during driven hunts. The owners of a hunting area can obtain exemptions from the relevant authorities. We will inform hunters if in some areas there will be such a permits for hunting mouflon rams, fallow bucks and red stags.
