## DUCKS DRIVEN SHOOTING DAYS

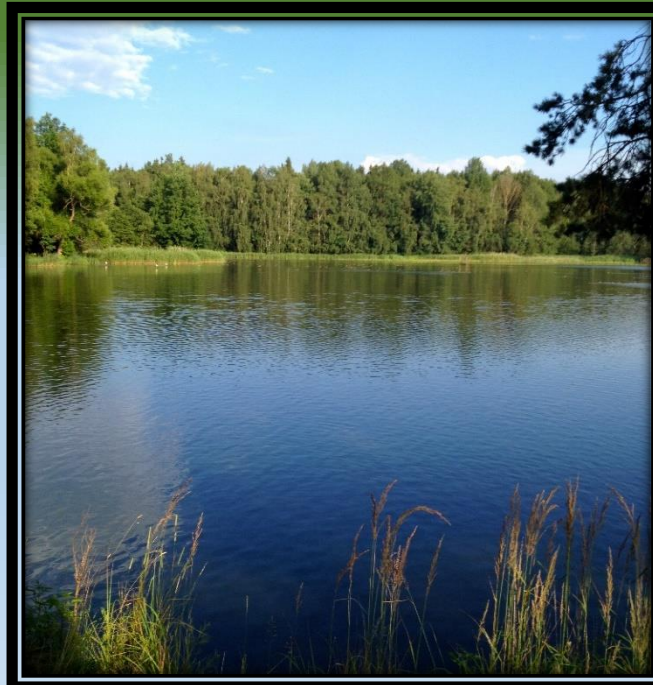

*Ducks shooting occurs in areas sizing 2000 hectares with several lakes sizing totally around 700 hectares. This area is located in Southern Bohemia, approximately 150 km from Prague, 90 km from Linz (Austria) and 140 km from Passau (Germany). About 30 thousands ducks are released on ponds during spring time.*

*Driven duck shooting days are organised accurately by skilled staff with the help of appropriate number of loaders, beaters and high pedigree dogs. Hunters are transported by small boats to pontoons placed in different areas of ponds. High flying ducks are shot mainly from pontoons, seldom from bank of ponds.*

*Driven shootings are usually arranged for groups of 10-20 guns with 2-3 shooting days. Rich daily game bag up to 1000 - 1500 ducks are not uncommon. Organization is in line with old hunting tradition and includes opening hunting ceremony and hunting ceremony at the end of shooting days with ducks tableau.*

*All this in the presence of experienced hunting horn players.*

*Reviews about their ducks shooting days by our clients from all over the world are very positive.*
