

ST HUBERTUS HUNTING TOURS

BIRD SHOOTING, GAME HUNTING AND FISHING IN SOUTH AFRICA

BIRD SHOOTING IN THE SOUTH AFRICA

Thanks to our partnership with a prestigious local hunting enterprise we can manage unforgettable bird-shooting and game hunting in the northern Cape of South Africa. With 5 species of dove, 7 duck species, 3 goose species and numerous other birds (not to mention the 100's species to be taken with rifle and bow) South Africa is indeed a shooting-hunting realm. The hunting estate is owned by a family of appassionate hunters with a long experience hunting all over the world. Shooting-hunting stays are managed in a very professional way by the owners and their skilled and qualified staff.

WING SHOOTING

During your stay in South Africa you can experience some of the best wing shooting in the world along amazing rivers, lakes and ponds that are a paradise for wildwife and birdlife with thousand of ducks and geese and other bird species.

DUCKS AND GEESE

The waterfowl shooting occurs over lakes, ponds and arable farm land along a river. Bags up to 130 ducks and geese a morning are not uncommon. Shooting staff has constructed woven reed hides as cover for the shooters and has pit blinds or hides in place where hundreds of birds flock.

DOVE SHOOTING

Dove shooting occurs over peanut fields with English pigeon magnets and decoys. The fields can exceed 400 acres and are feeding grounds for tens of thousands of

dove. Shooting staff can guarantee every gun will have the chance of taking 250 doves a day.

GUINEA FOWL, FRANCOLIN, QUAIL AND SAND GROUSE SHOOTING

The kind of games shooting is mainly done over thick grass lands of maize. Walked up shooting is the name of the game here most of the time. A line of gun dogs and locals sweep areas with high populations of game birds. Flocks of 400 plus guinea fowl, Coveys of Orange River and Swanson's Francolin (with odd quail and sand grouse) guarantee wonderful mixed daily bag.

HUNTING

The pursuit of plain game in Africa is with no doubts one of the most exciting form of hunting one hunter can experience. With over 25 species of animals (please see our offer below) you never know what will appear from behind in the next row of trees or patch of dense white thorn or acacia bushes. Hunters come back to their countries with unforgettable hunting memories to last a life time. Whatever your choice about weapon (bow, cross bow, muzzle loader or rifle hunting) gripping hunting days are guaranteed by many thousands of acres of land (with a great abundance of game) where hunting staff has arranged bow blinds, high seats and brush blinds.

FISHING

In this area there are some of the most picturesque river systems and water sources, as well as some of the best fishing for fresh water fish you can encounter in South Africa. Very skilled guides are at your disposal to point out and name different species of birds, insects and wildlife that you will see during your fishing days. Boats, motors and waders are provided for fishing mainly the following species:

- *Yellowfish*
- *African Sharp Tooth Catfish*
- *Carp*

ACCOMODATION

During your stay a 4 star game lodge is at your disposal. It is set in 10 acres of lush green grass and colourful native flowers with secret gardens and two wild overgrown pools. The lodge accommodates up to 20 people in luxurious king sized or twin bedded en suite rooms which are all decorated in traditional African style. The warm silence of the African bush ensures a peaceful night rest and nature chorus at dawn is a wonderful way to wake. All rooms are full air-conditioned. A daily laundry services ensure you are never cluttered with dirty laundry and clean towels are provided on a

daily basis. The main entrance to the lodge opens up into a spacious dining room where all meals are served (wide choice of breakfast options and a delicious 3 course dinner prepared with local produce. During your last night stay the staff arranges a braai (BBQ) evening with a vast array of traditional foods and drinks. A camp fire is lit and guests usually talk about their experiences.
